

St. Mary's Catholic School invites all students
to an evening of creative fun and interactive learning.
Bring your family and friends to experience what our amazing
sponsors are bringing to Texoma.

The poster features a dark grey background with a light blue border. At the top, there are six circular icons: a blue 'U' with a white bar chart, a red book, a blue pipette, a red molecular structure, a red apple, and a person wearing safety goggles. Below these icons, the word 'STEM' is written in large, colorful letters: 'S' is blue with a white molecular structure, 'T' is green with a white circuit board, 'E' is yellow with white gears, and 'M' is red with white geometric tools. Underneath 'STEM' are the words 'Science • Technology • Engineering • Mathematics' in a smaller font. Below that, the word 'NIGHT' is written in large, bold, blue letters. A decorative horizontal line of 'X' marks separates the title from the event details. The event details include 'St. Mary's Catholic School McCullough Center' on the left, the school's logo in a red circle in the center, and 'Friday, October 26, 2018 6 PM to 8 PM' on the right. Below this, the text reads: 'Come join us for team challenges, individual challenges, interactive displays, giveaways and door prizes, food trucks, and FUN! The event has free admission and is open to all!'. Another decorative horizontal line of 'X' marks follows. At the bottom, the word 'Featuring:' is followed by three circular logos: 'TEXAS INSTRUMENTS' (red and white), 'Per[]t' (yellow and blue), and 'IBM' (green and white). To the right of the IBM logo is the text 'and many more...'. At the very bottom, it says 'Visit the St. Mary's Catholic School website at <https://stmarys-sch.org/STEM>'.

Admission is free!
